

# FIVE REASONS TO HIRE AN INTERIOR DESIGNER

Racheli Lewinson of LL Design

## *Professionally trained:*

Interior designers not only have years of education, they have also spent years perfecting their ability to conceive and execute projects. They are skilled in all phases of a build, from identifying a client's needs and desires, developing and keeping to a budget, flushing out a workable design and seeing it through to installation and delivery.

## *Trim Costs and add value:*

An experienced designer knows where and how to shop and can leverage their buying power, resulting in better deals on materials, supplies, and furnishings than a retail customer would receive. A well-executed design adds more than just aesthetics. A designer's smart and practical ideas make the most of your space, which ultimately increases the value of your finished project.

**"INTERIOR DESIGN  
IS MAKING THE BEST  
POSSIBLE USE OF THE  
AVAILABLE SPACE".**

## *Helps you define, refine, expand your style:*

If you are not 100% sure of your personal style or only know what you like or don't like when you see it, then it is definitely advantageous to hire a designer. A trained and experienced designer sees the bigger picture while still focusing on the small details, completing your design or renovation project cohesively.

## *Saves you time and your sanity too!*

Building or renovating your home IS stressful. Besides designing and planning, a good designer finds, coordinates, and schedules all contractors, subcontractors, and vendors allowing the client to enjoy a seamless process of seeing their dreams come true without aggravation. Finalizing a design plan, finding contractors, and sourcing everything for the project is a massive undertaking, especially if you are not on site to oversee it. A designer lifts a big weight off your shoulders and places the burden in capable, professional hands.

## *Has extensive resources and contacts:*

Finding and hiring a reliable general contractor on your own is overwhelming. With an interior designer coordinating your entire new build or renovation project, you will have the most skilled, experienced, and reliable professionals working together to bring your project to fruition. A designer has access to "trade only vendors," as well, often at reduced cost, and the finest craftsman in the industry.

**Racheli Lewinson** of LL Design, a Bezalel trained Interior Designer, has been creating beautiful projects for international clients since 2014. From the initial meeting through the finishing touches, clients receive expert guidance and care. Schedule a consultation today to discover the LL Design difference.
